Academic Integrity

Academic Integrity is foundational and essential for a student's educational success; therefore, strict measures will be taken to uphold this standard. In the event of confirmed cheating, plagiarism, theft of exam keys, etc., students will receive a zero on their assignment, quiz, or test; a written warning will be issued, and parents will be notified. In the event of a secondary offense, the student will be suspended/expelled from school upon the school's administrative decision.
